We are not a democrat nor a son of a democrat, but we are truly and thoroughly sorry at learning that Will Walton had to decide it best to suspend the Lexington Gazette. — Somerset Republican.

The Republican is in receipt of a letter from Robert C. Saufley, at Parker, Ariz. The G. A. "Uncle Jimmy" Terry, the venerable huckman, seldom drives his faithful horse out of a slow walk, and according to Policeman John Camden, he kept the city from getting a little revenue from a man who had imbibed too freely. The officer loaded the prisoner in "Uncle Jimmy's" hack at the depot with the destination as the police court, but the vehicle moved so slowly that the prisoner had time to sober up and the charge could not be held against him. — Somersett Times.

The Lexington Gazette suspended publication Wednesday, after a hard fight to make a third daily pay in that city. During the past year, the Gazette has been edited by Col. W. P. Walton, one of the best-known newspaper men in the State and his brilliant and aggressive work was of inestimable benefit to the Democratic party. We do not allow our personal fondness for Col. Walton to run away with us when we say that he is unquestionably the most fearless, just and able writer we ever read after. We trust he will soon get back in newspaper harness, where he rightfully belongs and where he is needed. While some people may judge from his writings that he is a bad man from Bitter Creek, yet such is not the case, as a kinder-hearted, more honorable gentleman never lived. — Richmond Climax.

With a warning to all others who might contemplate similar offenses, Judge Read sentenced Edward Reuter and E. F. Kinley, employed by the Heuck Opera House Company, of Cincinnati, to 30 days each for posting immoral pictures of a dancing girl on private property.

Arthur Goebel, brother of Gov. William Goebel, of Kentucky, who was assassinated, died at Phoenix, Ariz., Friday. He was the youngest member of a family of three brothers, and was born at Carbondale, Pa., in 1863. He was educated in law, but abandoned that profession on account of ill health. He was the sole heir to his dead brother's estate, and is said to have spent most of that fortune in prosecution of the alleged assassin of the murdered Governor. Mr. Goebel will be buried at Covington this week. The day of the funeral has not been announced.

of Lincoln county, is a candidate for nomination for Congress from the Eighth district, subject to the action of the democratic party.

DIED OF A BROKEN HEART.

News of the death of Arthur Goebel will fill with sorrow all who loved his brother William Goebel and admired the deceased for his many manly traits, for his wonderful devotion to his brother's memory and his uncompromising determination to ferret out and punish those guilty of his assassination, either by act or conspiracy. That he did so few honest men will deny, but the work of nearly ten years went for naught when a partisan governor pardoned the assassins. The blow seemed to break his spirit and destroy his health, and he has never been a well man since. His one object in life was gone and completely broken down, he sought rest and recuperation in the far West, unhappily in vain. Death had marked him and he has gone to meet that brother he loved so dearly here, beyond the grave.

The life and sacrifices of Arthur Goebel were pathetic in the extreme. He was never the same man after his brother's assassination, a natural smile sometimes illuminated his countenance, but a hearty laugh never escaped him.

His mind seemed to dwindle on his fearful loss and his one object seemed to be to avenge it, only through the forms of the law. It was a fearful temptation for him not to shoot down even in the court-house the ones he knew were guilty of firing the shot which killed his brother or of conspiring to the heinous act. He restrained himself, however, and by the irony of fate goes hence while those who killed his brother are permitted to encumber the earth. Viewing all the facts connected with the horrible crime, and Arthur Goebel's ten years of self-sacrifice it almost makes a man doubt the justice of God Almighty, that he should die and the assassin live.

Arthur Goebel was as gentle and as kindly in disposition as a woman, and although his sorrow had made him taciturn to a great degree, he was loved by all who knew him as a devoted brother, a true friend and the highest type of a gentleman.

The unveiling of Gov. Goebel's statue at Frankfort, which has been in position for more than a year, has been three times postponed on account of Arthur Goebel's illness, and now when the day is set for February 3, it will be unveiled without his presence. May God reward his sacrifice and devotion and curse in deepest hell through all eternity every one connected with the diabolical crime which ended the life of his brother, the friend of the great common people, and drove him to an untimely grave.

Over Gov. William Goebel's grave the shaft should bear the inscription: "Died at the hands of assassins;" over Arthur Goebel's should be inscribed in imperishable granite, "Died of a Broken Heart." The fiends are guilty of the murder of each. That both are dead and only a scapegoat punished, is the travesty of travesties of justice, and shows the patience of a long-suffering people and the mercy of an avenging God.

SENATOR THOMAS A. COMBS, of Lexington, succeeded, after great trials and many tribulations, in getting the County Unit bill referred to the Committee on Religion and Morals, which will proceed at once to put it to sleep. The parliamentary tactics resorted to by him enabling him to do so were well executed, but we have a suspicion that the Senator will regret his act before he is many years older. The people want a chance to vote whisky out, if they can, and will be much incensed if by such hocus pocus they are denied the privilege. The State Journal is making a strong fight for fairness in the matter, but we fear it is against too great odds.

A RESOLUTION providing that each member of the Senate be provided at the cost of the State with the Cincinnati Enquirer, Courier-Journal, Louisville Herald and Lexington Herald was adopted by that body. This species of petty graft ought to be denounced by every other paper in the State. The tax payers should just as well be called on to pay the board of the Legislators, as for their papers. A singular fact is that both of the Frankfort papers were excluded from the list, although they print more legislative matters than most of the other papers.

WITH the price of cotton hosiery and underwear 50 per cent. higher than a year ago, the manufacturers say they will raise the price 25 per cent. more in "order to get some profit out of the business." The Aldrich-Payne tariff is responsible. If prices for hosiery continue to soar, it may come to pass that the bare-legged girl will be the rule instead of the exception.

AN armless Washington man is under arrest for beating his wife. He ought to be able to maintain a plea of non est factum, as we lawyers say.

BOYCOTTING THE MEAT TRUST.

The very high prices of meats in the cities caused by the trust forcing them up, has created a general boycott against the use of meats in some sections. Over 11,000 people in Cleveland, O., have agreed to eat no meat until the prices come down. A great many of the cities are following suit and the move promises to take on large proportions. Our people eat too much meat any way. Once a day and a banding together for the free entering into this country of cattle from Canada and Mexico would produce the desired results. In both of these countries beef, pork, mutton, dairy products and bread stuffs also, are much lower than here and there is a great surplus of each. That the tariff is responsible in a large measure for the high prices in this country is shown in the fact that living is 25 per cent. more costly at Detroit, for instance, than in Canada, from which it is divided by a narrow river.

THE House bill to admit Arizona and New Mexico as States has passed the House but the Senate seems disposed to vote against New Mexico on account of the character of its population. Should both territories be admitted, we shall have 48 States, and then there will be only Alaska, Porto Rico, Panama, the Philippines and Guam, though it will be a long time before some of them are fitted for American States, if ever.

SENATOR Root's bill to pension Mrs. Cleveland at \$5,000 a year calls attention to the long neglected action when the wives of other presidents, vice presidents and some generals are provided for as soon as the deaths of their husbands occur. If the fact that President Cleveland was a democrat is the cause of the delay, it is most discredit able.

A BILL has been introduced in the Virginia Legislature prohibiting the playing of football under the heaviest fine. This is the result of a couple of boys getting killed in a game over there, but, of course, such a radical bill will not pass. Football is all right; all it needs is a change of the rules eliminating the brutal features.

THE Louisville states uses as a headline "Headless body of a dead woman found." There is nothing strange about that. The wonder would have been if her head was off that she was not dead. Killed in a fatal accident may yet come into use in that paper.

A CALIFORNIA physician says that porter-house steak will cure rheumatism. If this were the only remedy none but rich folks could take the cure. The poor, at the prices of such steak prevailing in the cities, would have to grin and endure.

OUR friend Pitman, of Boyle, wants to make house-breaking a capital offense. Ordinarily, a fellow who will break into a house will commit murder, if caught in the act, and it is probably on this principle that Mr. Pitman is proceeding.

POLITICAL.

It cost James J. Storrow \$103,250 to make the race for mayor of Boston and he did not win.

The Indian appropriation bill carrying approximately \$9,000,000, was to have been reported Friday.

Charles W. Bryan says that his brother, William Jennings Bryan, is in no sense a candidate for president again.

Congressman Johnson has introduced a bill providing \$50,000 for the purchase of a site for a public building to be erected at Elizabethtown. He also offered a bill appropriating \$50,000 for the erection of a public building at Bardstown.

Senator Carter will introduce a bill which in effect will turn over to the State any government land chiefly valuable for use in the development of water power. The plan is the result of a conference between Senator Carter and Western Governors.

The Senate Committee on Irrigation will report a bill providing for a \$30,000 bond issue to complete irrigation projects. The committee was in session late Saturday working on details of the bill, which is to be in line with President Taft's recommendations.

Which shall it be—Caleb P. or Don C.? That is the absorbing question in the Eleventh now, and before the campaign is over somebody is going to tell something on somebody that everybody wants to hear. Watch, look and listen, the guns are trained and ready for action.—Somerset Times.

At a conference with Chairman Foss, of the House Committee on Naval Affairs, and Representative Roberts, of Massachusetts, member of the committee, President Taft announced that he favored a provision for two new battleships of the improved Dreadnaught, or "all big gun," type in the forthcoming naval appropriation bill.

Hon. W. H. Shanks, Lincoln county's representative, has offered the following bills: To establish the Kentucky School for the Deaf and the Kentucky School for the Colored Deaf at Danville, providing Board of Commissioners, defining powers and duties, appropriating \$20,000 and \$2,500 annually and \$140 per annum for each deaf child while in the institution. Creating board for examination and registration of trained nurses.

Albert S. White, the colored, Louisville attorney, has received a communication from Washington signed by a number of friends there, that he will more than likely be appointed by President Taft as Minister to Hayti.

The republicans mustered their entire party strength in the House and forced through their caucus programme eliminating Mr. Rainey, of Illinois, from the Ballinger-Pinchot investigating committee. The House first voted down an amendment offered by Mr. Clayton, of Alabama, substituting Rainey for Lloyd, who announced that he would not serve.

John W. Holland, of Shelby county, introduced in the House a bill which, if enacted, will repeal the Sullivan school law, consolidating school districts. Mr. Holland says that the main objection on the part of his constituents to the Sullivan school law is that it makes it possible for a Negro to serve as a member of the board of trustees of a white school. Further objection to the measure is that it centralizes the power to appoint teachers, taking that power away from the trustees representing the different school districts.
